All I want to be ...

Johnson Grammar School

IB PYP (Proposed)

A Future Of Limitless Possibilities!

FOR EVERY CHILD, THE EARLY YEARS ARE LIKE PIECES OF THE TANGRAM

Early years development signify changes in your child's physical growth, but it also includes changes in your child's social, emotional, behaviour, thinking and communication skills.

In the first five years of life, children's brains develop connections faster than at any other time in their lives.

This is the time when founding blocks for learning, health and behaviour throughout life are laid down.

Johnson Grammar School invites you to collaborate with us to construct a meaningful composition for your child's life, just like the pieces of the Tangram, by recognising their faculties and envisioning future possibilities through the proposed PYP curriculum.

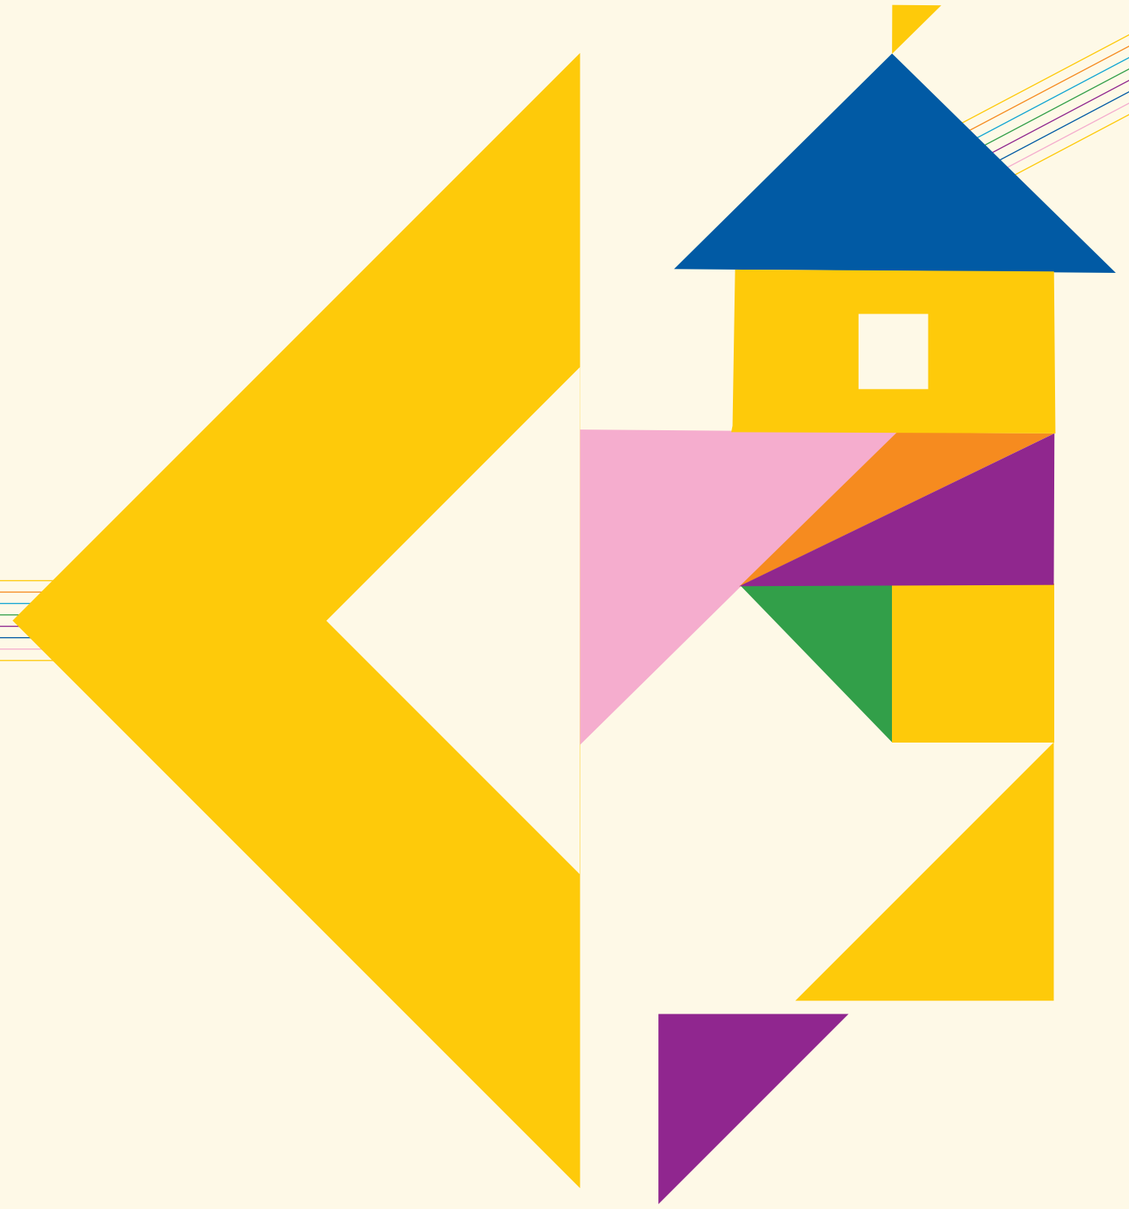

START EARLY AND START BETTER FOR A FUTURE FULL OF POSSIBILITIES!

> Johnson Grammar School, a brand with a legacy of four decades in the field of education, has now brought its expertise and passion for learning to Kokapet with IB PYP (Proposed). We are here with the goal of turning the primary years of children into a stronger foundation for building a future with limitless possibilities.

IB programmes at JGS aim to do more than other curricula. The IB PYP offers an inquiry-based, transdisciplinary curriculum framework that builds conceptual understanding. It is a student-centred approach to education for children aged 3-12. It reflects the best of educational research, thought leadership and experience. **JGS IB PYP situated at our new Kokapet Branch, is offering the Primary Years Program from Nursery to Grade 2.**

THE LEGACY WITH THE FUTURE VISION

Inspired by Dr. Samuel Johnson's works Johnson Grammar School was established by Shri SRN Mudiraj in 1979.

In 1990 the trend was set of achieving 100% result and is being continued to date. In 1998 JGS became the first ISO 9002 certified school in India.

To bring more comprehensive development to our students, we initiated the IBDP program in 2008 making JGS one of the first IBDP schools in the Twin Cities.

In 2011 We branched out to a new building at Mallapur making it our 2nd Campus.

JGS IBDP reached its 14th-year mark in 2022 and has successfully completed 2 reviews since authorisation.

OUR ACCOLADES

Education Today conferred the school with - Parents' Choice Award for exemplary contribution to the field of education.

1st position in Telangana and 3rd in India under the category - India's Top 20 I.C.S.E. Schools in the survey conducted by Education Today for the year 2021-22.

Awarded 1st rank in "Most Inspirational School" category by India's Top Prestigious School Jury Awards 2022

WHAT MAKES US A LEADER IN THE FIELD OF EDUCATION?

Our Vision

To ensure all children from our school are able to adjust to this fast-changing global environment, along with the ability to lead in any field of their choice with the utmost integrity and courage.

Our Mission

To achieve and sustain exemplary standards, at national as well as global, in both formal education and student discipline by providing quality education and all-around development for every student. We are committed to building and maintaining a culture for continuous improvement in all functions of our institution and monitor every success.

Our Philosophy and Core Values

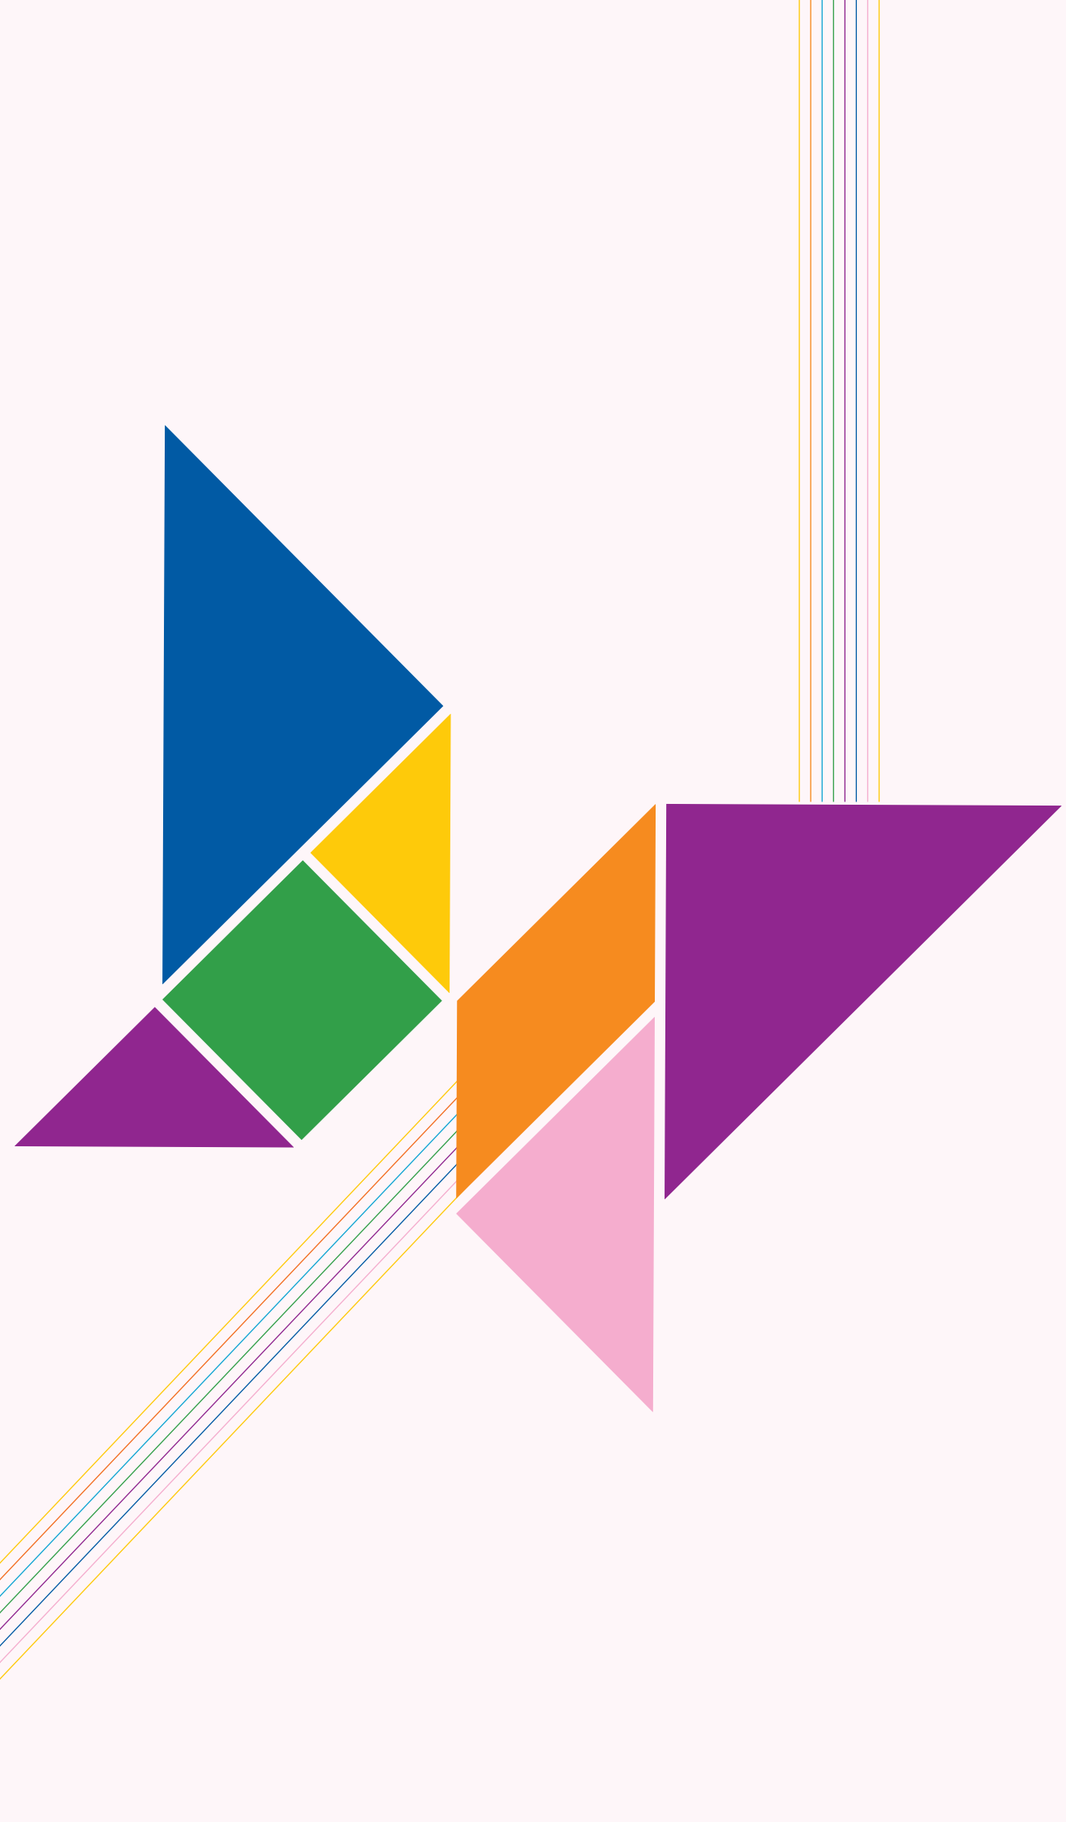

We believe 'Value' and 'Quality' are two words which require continuous processes to update. The two major ingredients 'Innovation' and 'creativity' speak of the value and the quality added to the years because, in this everchanging world, the structure, strategy, people, management style, systems and procedures change periodically or at certain intervals.

However, the guiding concepts and shared values remain constant. People cannot be taught but can only learn. We facilitate learning, which is nothing but a realization, which best happens through self-inquiry, exploration and experience.

GIVE YOUR CHILD EVERY PIECE TO FORM A VIBRANT TOMORROW!

Studying at Johnson Grammar School will ensure every child a choice and an opportunity to be exposed to the best global curriculums that are in line with the vision of the school.

The International Baccalaureate with its Primary Year Programme is one such curriculum that resonates with the school's core values. It emphasizes building a strong learning pattern that prioritizes responsibility and ownership of the child's knowledge and conceptual understanding.

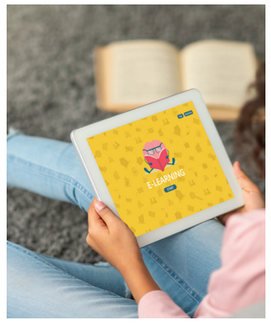

> JGS IB PYP (Proposed) curriculum is like the Tangram itself, each piece like the various programs, subjects and courses; unique in their own shape and form, but when put together, result in a defined and vibrant future!

A COMPREHENSIVE APPROACH FOR YOUR CHILD'S GROWTH AND DEVELOPMENT

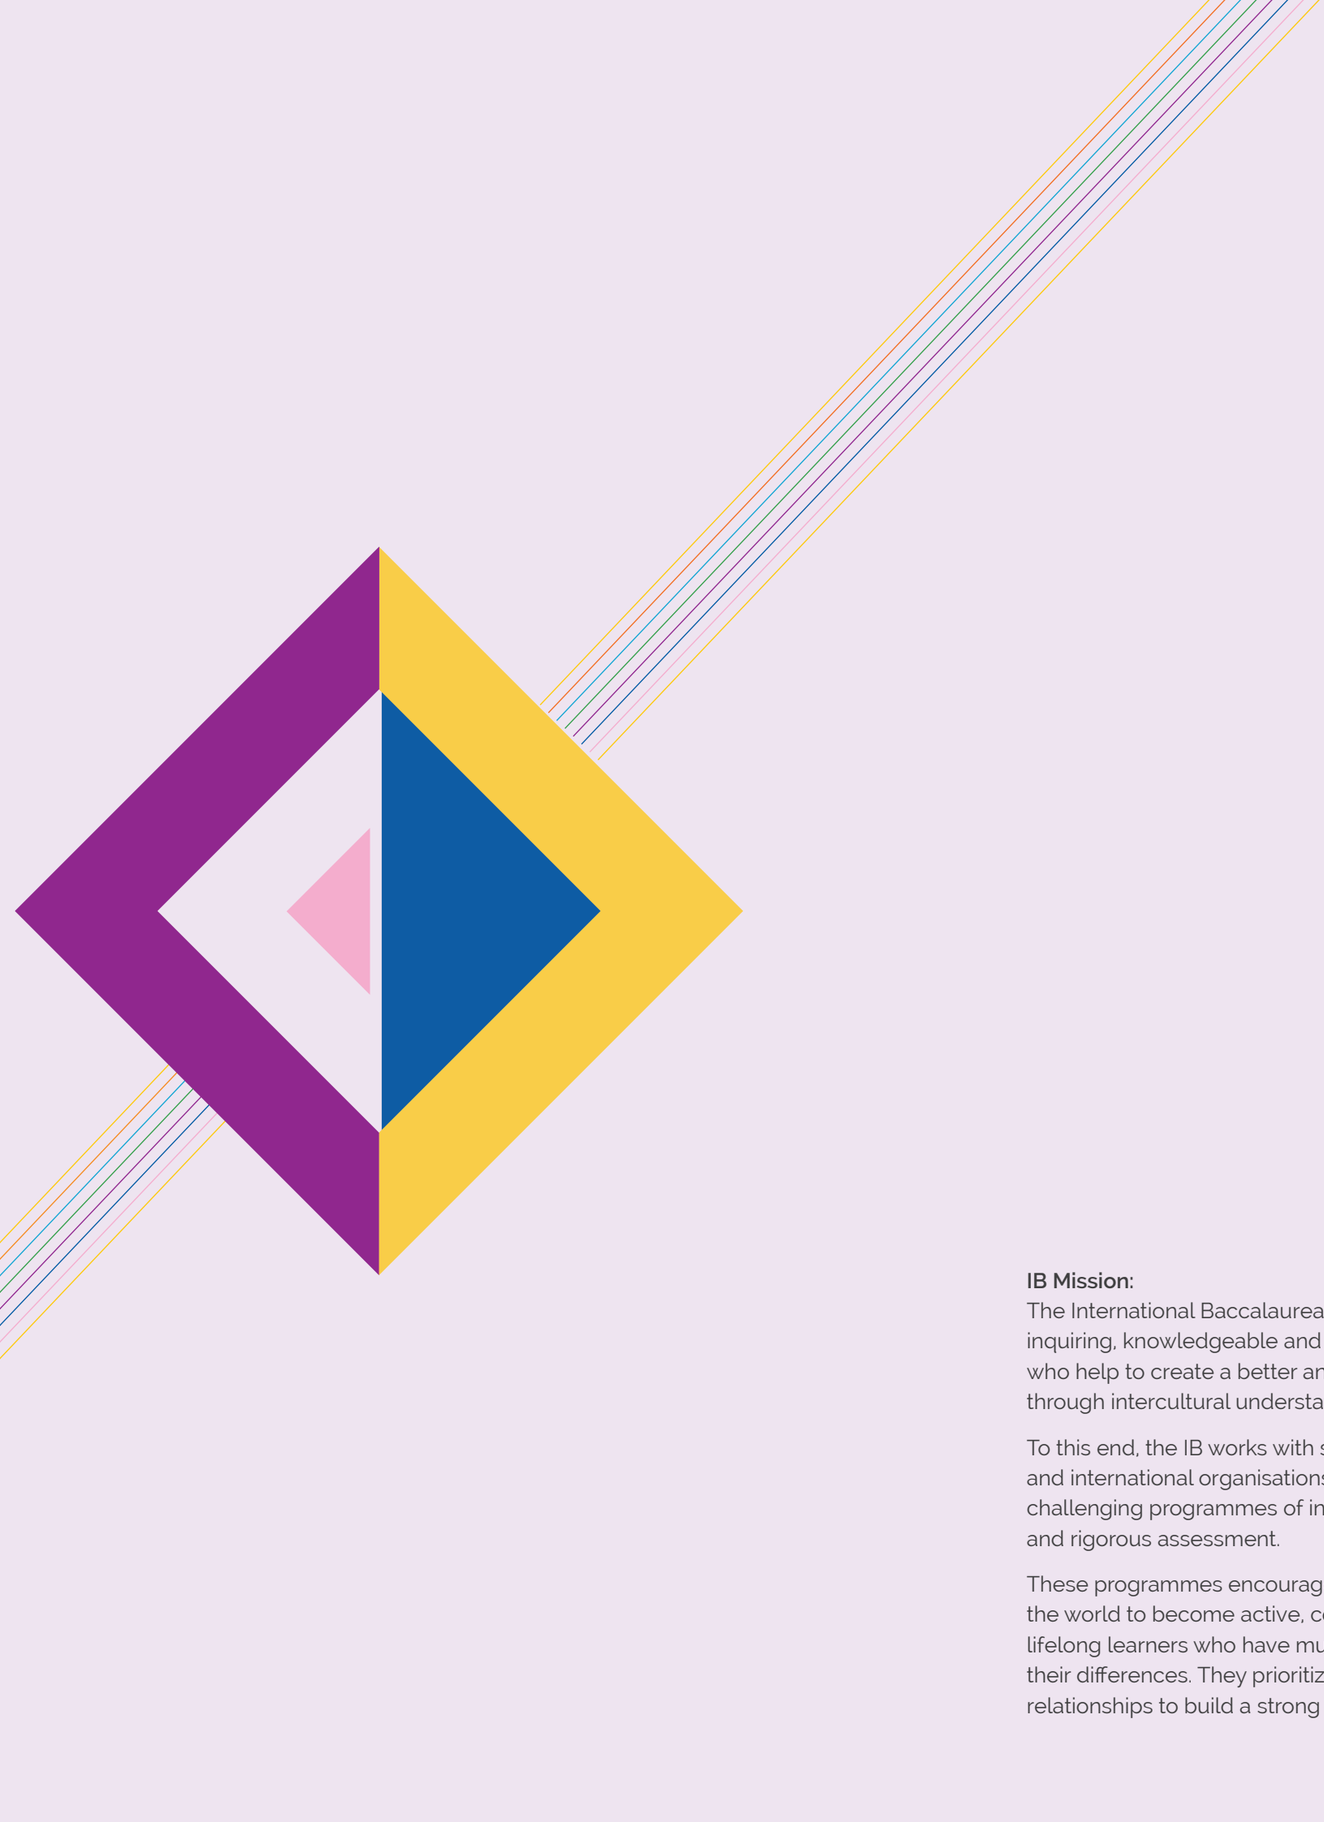

- The calendar year starts in April and ends in March.
- **School Day:** Nursery - 8:30 am to 12:00 pm, PP1 to Grade 2 - 8:30 am to 2:30 pm.
- **School Working Days:** Monday to Friday.
- **Classroom:** Student-teacher ratio of 24:2 (with 1 facilitator and a homeroom teacher) in every classroom.
- **Technology:** All classrooms will have Digi-boards and will be Wifi accessible for a broader learning experience. Students will have access to tablets or chrome books to enhance the students´ learning experience (under the teacher's supervision).
- **State-of-the-Art Facilities:** Library and Indoor Auditorium, Activity Room, Infirmary, Calming Room, Play Area, and all AC Classrooms.
- **Transport:** AC Bus service will be provided (Optional).
- **Extracurricular Activities:** A wide range of activities and clubs will be offered both with external and in-house providers. Termly, there will be different activities that will be introduced and will take place during or after school hours. Dance, yoga, art, early digital learning are a few offerings to mention. Weekly two PE classes will be assigned to every class apart from these.
- **Student Support:** All facilitators (teachers) will be trained as per the IB-PYP requirements. Most staff are experienced in dealing with additional learning needs. The school counsellor is well-trained to guide and advise parents.
- **Subjects Offered:** Languages, Social Studies, Mathematics, Music & Arts, Science as well as Personal, Social and Physical Education. All these subjects are taught by following 6 Trans-Disciplinary Themes that help students explore significant concepts through Units of Inquiry.

UNDERSTANDING IB PYP CURRICULUM FRAMEWORK

The PYP has evolved to become a world leader in future-focused education. The PYP is one of the best educational practices globally, responding to the challenges and opportunities facing young students in our rapidly changing world.
This program develops caring and culturally aware children aged 3-12 to become active participants in their own learning.

IB Mission:
The International Baccalaureate® aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

To this end, the IB works with schools, governments and international organisations to develop challenging programmes of international education and rigorous assessment.

These programmes encourage students across the world to become active, compassionate and lifelong learners who have mutual respect beyond their differences. They prioritize people and their relationships to build a strong learning community.

OURS IS THE COMPLETE COMPOSITION!

JGS IB PYP (Proposed) aims to ensure all our students are empowering individuals that have a voice of their own while also being more open to and accepting of other people's opinions. To make education and learning as to their capabilities and not to follow a pattern or norms. These individuals will be the future and will be more caring, empathetic and knowledgeable which goes beyond the usual classroom teaching.

Our Learning Spaces are specifically designed to promote a healthy learning environment. We are a Complete PYP school. The infrastructure design is planned and executed to develop spaces that provide optimum learning experiences that will develop curiosity amongst children specific to the age of 3 years and above.

> With the same few pieces of Tangram, innumerable shapes and figures can be created. In the same way, with Johnson Grammar School, children can access unbound possibilities to create their own future.
